

Internal Medicine Residency Spokane Program

Medical Knowledge Readings Intern – Rheumatology - SHMC

Medical Knowledge:

The intern resident is expected to learn the general approach to the evaluation and treatment of patients within the context of multiple diseases of the cardiovascular system. A baseline understanding of disease and foundation for reading is typically individualized by residents through the use, but not limited to, of textbooks online (see below), UpToDate, ACR guidelines, and through attending specific readings. Below is a list of additional suggested readings.

[ACR Guidelines](#)

HSL links:

- [Visual Dx](#) – Great resource for classic syndromes
- General Textbook Chapters
 - o [Rheumatology – Expert Consult - 2015](#)
 - o [Rheumatology Board Review – 2013](#)

The topics will be re-evaluated throughout the year during resident only meetings and we appreciate suggestions of relevant topics/documents or irrelevant documents that may have an alternative superior option.
